MUSKINGUM COLLEGE
Curriculum Committee Minutes
August 24th, 2006
3:15 p.m., Caldwell Hall 350

Presiding: Reichardt P.
Absent: Student Appointees

1. Discussed committee membership. Dr. Reichardt said he would have someone remind Student Senate to appoint student members. Dr. Reichardt brought up the idea to have subcommittees of the CC tasked to review proposed curricular changes that would impact the LAE.

2. Discussed the proposed meeting schedule and agreed to meet on Thursdays at 3:30 PM in PBC 350 per the schedule distributed by Danielle White. (Meeting dates are: Sept. 7, 21, Oct. 5, 19, Nov. 2, 16, 30, Dec. 14)

3. Discussed potential barriers to the engineering curriculum’s progress. Determined that the curriculum should be presented to own division prior to submittal to the CC. Also discussed the potential nursing program and reviewed its current status.

4. Determined to develop a Learning Objective for the 3rd Goal for Student Learning in the LAE: “multiple and integrative approaches to life-long learning”. The committee felt that Sheila Ellenberger, as both a CC member and an expert on lifelong learning, should be included in the discussions regarding this learning objective.

5. Dr. Reichardt stated that if he were ever absent from a CC meeting which had agenda items requiring urgent attention, the senior faculty member present should chair the meeting (assuming quorum)

6. The committee discussed issues related to teaching load equity. No conclusions were reached and no action was taken.

Respectfully Submitted by:
Daniel B. Wilson

Distribution: Committee members and Ellenberger, Normansell, Nutt, and Rataiczak.
