Curricular Business:  

3) Considered the following proposals from the Education Department:  
   a) Moved the proposal for adding EDUC 419 under the listings for the Early Childhood major as an editorial correction, but then withdrew the motion since the change was not actually a catalog misprint as was stated in the submitted materials. The original proposal from December of 2009 showed that the course EDUC-419 was purposely and explicitly excluded from the ECED major. The Committee requested that the department resubmit the request once the change was considered as an actual change, not just an “editorial correction”.  
   b) Moved that the remaining items be considered as a group, then withdrew the motion and moved each item individually.  
   c) Moved the proposal to add the words “and/or Health Education” to the top of page 93 Multi-Age Licensure Areas. This will bring the description in line with the course titles for EDUC 455/457. The Committee received the change, but recommended that the Education Department change the entire subsection under Multi-Age Licensure Areas by adding in the course prefixes and better defining the requirements.  
   d) Received the request to remove the “minor” requirement from the Early Childhood Education major.  
   e) Received the request to drop EDUC 466 from the Middle Childhood major requirements.  
   f) Received the request to remove the “minor” requirement from the Middle Childhood Education major.  

4) Received the proposal from the English Department to change the prerequisite for ENGL-311 from “Education 309, 312, 313, 314” to “English or Middle Education majors only”.
