Challenging, Engaging, Life-Changing…

Muskognum University
Generations of students have found themselves in the understanding and competence. I’ve always believed that New Concord and Muskingum are the center of the universe, because if you get your start here, you can go anywhere.”

John Glenn, Class of 1943
Senator, Astronaut

…If you get your start here, you can go anywhere.
Welcome to Muskingum University

Join the Muskie Community!

What is a Muskie?
The muskie is a fierce, highly prized, fresh water game fish – and the Muskingum University mascot.

Within the Muskingum community, the term “Muskie” affectionately refers to our students, alumni, faculty and staff – each of whom contributes to making Muskingum University a unique and special place.

You might enjoy becoming a Muskie if…

- you appreciate an environment where friendliness is a way of life, where members of the campus community greet friends and strangers alike with the traditional Muskie “Hi!”
- you want to receive your degree from a nationally-respected institution, where alumni have had distinguished careers in all walks of life.
- you would enjoy being at the only institution in the U.S. that has a school color of Magenta!
- you would like an institution where you will engage in active learning with highly qualified faculty members who will be your teachers, mentors, colleagues and friends.
- you would enjoy an institution where you can participate, try new things, lead and perhaps most importantly, make a difference!

If you would like these qualities in your education, you will make a great Muskie!
Muskingum is Small Enough That...

- it is easy to make friends – in fact, many Muskingum students get to know more students, faculty, and staff than students at larger schools.
- you can ask a question in class, or after, and the professor will know who you are.
- you can walk from one end of the campus to the other.
- you can continue to be involved with many of the activities you enjoyed in high school – athletics, theater, music, leadership activities – and you will feel comfortable trying new things, such as studying abroad or working at the campus radio station.

But Big Enough to...

- offer a wide variety of academic studies.
- be recognized and respected by graduate schools and potential employers.
- challenge you academically.
- expand your horizons through new experiences.

A Welcoming Experience

“My first-year experience at Muskingum has been incredible. Everyone on campus is welcoming and willing to help! My time on campus has exceeded expectations... I cannot imagine anything better than being a Muskie!”

Sean Bradford, Class of 2019
New Concord, Ohio
A Close Knit Community of Faculty, Staff, and Students

“When I first started looking at colleges, I was nervous to go too far from my hometown. One visit to Muskingum, though, and I was ready to start school here. The university and all of its staff, faculty, and students made me feel so welcomed even from my first tour. The small town feeling, and the way that every Muskie wants to help you succeed makes Muskingum into the perfect home away from home!”

Beth Ford, Class of 2017
Slippery Rock, Pennsylvania
Thoughts on the Practicality and Importance of a Liberal Arts Education

“One of the many reasons I enjoy teaching at Muskingum is that we don’t just convey information, we teach students how to think. We want our students to understand the larger context in which issues arise, and how to approach those issues analytically. Well-developed skills in critical thinking, problem solving and communication are practical tools applicable to any career a student may pursue. Given that our current students may change careers three or four times during their lifetimes, it is important that they have an educational background that gives them the flexibility and confidence to make those changes. Those attributes are what enable our graduates to excel, and what I and my colleagues strive to instill.

Through focused study in their chosen majors, Muskingum students are well prepared for the fields they choose to enter, but we also attempt to educate ‘the whole person.’ While that may have become a liberal arts cliche, it rings true here at Muskingum. We try to teach our students what it means to be human, responsible, and how we can ethically engage the problems and issues we face in our personal lives and in an ever-changing world. Muskingum isn’t just about dispensing material and content – we care about the process of thinking and the person who’s doing it.”

Dr. Rick Nutt, Professor of Religion
The core of the building is the pre-existing c. 1960 library building which is now enveloped in 16,000 square feet of new construction to create a spacious 40,000 square foot structure.

The Roberta A. Smith University Library is modeled around the modern concept of an information commons, bringing together academic life and social life and infused everywhere with technology.

The new library has general and reference library collections including three special collections: children’s literature, United States Presidents, and regional, church and university history. Also housed within the building are seven classrooms, three reading rooms, three library information hubs, study spaces (with interactive projection technology to support collaboration), student lounge areas, a teacher preparation learning assessment center, and library operations areas and offices.

In addition, Muskingum students have access through the Roberta A. Smith University Library’s system to 50 million books; 12,000 electronic journals; 150 research databases; a media center containing thousands of digital, educational films and documentaries, electronic images, maps and historical documents; and a center housing electronic theses and dissertations.

An Ongoing Commitment to Improvement

The brand-new Roberta A. Smith University Library opened to students for use on January 11, 2016.
A Professor’s Perspective on Student-Faculty Interaction

“For me, the most fun, exciting, and fulfilling aspects of teaching at Muskingum center on the work I do with students and the relationships that I’m able to build with them along the way. From first-year orientation to graduation day and beyond, my favorite moments are when I get to interact with students.

The faculty at Muskingum are committed to bringing out the best in our students, and we do this in a variety of ways. Small class sizes, interactive teaching styles, and one-on-one instruction, for example, offer excellent opportunities for personalized attention and to better communicate course material. In these and other ways, I get to know my students better academically, which allows me to maximize their potential in the classroom. Beyond classes, I also enjoy the chance to collaborate with students on research and to oversee internships. These are real-world, hands-on experiences that help students grow into their eventual profession, and it’s exciting to be a part of that process.

But life is more than just classes at Muskingum. Many faculty are involved with student organizations and activities as a way to continue their interactions with students outside of the classroom. I’ve been fortunate to advise fraternities, honor societies, and other student groups during my time at Muskingum. In doing so, I’ve developed relationships with students that I may not have known otherwise, and these experiences help me to better understand the student experience outside of pure academics. Being there when one of my students performs on stage or on the field is exciting for me, and I treasure the opportunities to do so when I can.

These short paragraphs aren’t nearly enough space to fully express how grateful I am to be at an institution that encourages and facilitates such student-faculty interaction. The experience of helping a student succeed in college is amazing. But the opportunity to know a student as a whole person, to get to be even a small part of his or her personal journey in life, is priceless.”

Dr. Brian R. King
Associate Professor of Political Science

What You Can Expect at Muskingum

- Small classes that encourage participation.
- Classes taught by professors, not graduate or research assistants.
- Faculty that want to help students reach their full potential.
- Research and internship opportunities for real world experience.
A Common Mission

“I chose to come to Muskingum because everyone… is here to learn and better themselves in some way, and the faculty and staff are here to help you…”

Dylan Parker, Class of 2017
Huntington, West Virginia

Research. Internships. Real World Experience.

Leah Buck, of Zanesville, attended and presented research at the Spring Meeting of the Ohio Section of the Mathematical Association of America (MAA) on April 9th. She is a senior mathematics major at Muskingum University and a Philo High School graduate.

Buck was one of only two undergraduate students on the April 9th program, which was predominated by faculty and graduate-level presentations.

Buck’s research focused on differential equations, Constructing a Universal Algebraic Differential Equation Based on Certain Trigonometric Relationships. She is under the guidance of Muskingum University Professor of Mathematics Dr. Richard Daquila. She explains that it’s “basically a differential equation whose solution can be used to approximate any continuous function.”

Buck is one of eight students, out of 330 applicants from across the country, to be accepted into the Research Experience for Undergraduates (REU) in Mathematics program at California State University, Fresno. That experience is an eight-week long program held in June and July.

Her work at REU will be to attempt to develop new, as well as improve existing methods of using multiplier sequences to locate the zeros of special classes of analytic functions.

The opportunity to research on campus became available to Leah because of the relationship she’d built with Dr. Daquila — she worked for him grading papers and expressed her interest in “learning the ins and outs of mathematical research.” She adds, however, that the opportunity was really available to her because of “the fact that Muskingum has faculty members, like Dr. Daquila, who are willing to work on projects with students.”
Major Areas of Study

Academic Majors
- Accounting
- Accounting (Public)
- American Studies
- Animal Studies
- Art
- Athletics Communication
- Athletic Training
- Biology
- Business Management
- Chemistry

The Value of a Muskingum Education

The ultimate testament to the value of a Muskingum education lies in the achievements of our alumni. Among our graduates are:

**John Glenn ’43**  
Pioneer astronaut and former U.S. Senator.

**William Dentzer ’51**  
Founding Chairman and CEO of the Depository Trust Company, the world’s largest security depository.

**Myron Moorehead ’58**  

**Marshall Phelps ’66**  
Corporate Vice President of Intellectual Property Policy and Strategy; Microsoft Corporation.

**Jack Hanna ’69**  
Director Emeritus of the Columbus Zoo and media celebrity.

**Jacqueline Woods ’69**  
The first woman to head a major public utility.

**Karen Forschner ’74**  
Founder and Board Chair of the Lyme Disease Foundation.

**Wiley “Chip” Soub, Jr. ’75**  
Dean of the Geisel School of Medicine at Dartmouth.

**D. Tom McCalmont ’76**  
President and cofounder of McCalmont Engineering, a leading designer of large-scale solar power plants and related renewable energy technology. Holds 13 U.S. patents.

**Dan Hughes ’77**  
Head Coach and General Manager; San Antonio Stars.

**Darrell Hazel ’86**  
Head Football Coach, Purdue University.

**Josh Boyer ’00**  
Cornerbacks Coach, New England Patriots.

**Jarrod Dalton ’02**  
Assistant Staff (Faculty), Departments of Quantitative Health Sciences and Outcomes Research at Cleveland Clinic.

**Amy Iler ’05**  
Rocky Mountain Biological Laboratory, Postdoctoral Research Associate.

**Manu Mukerji ’07**  
Architect at ShareThis, responsible for writing the code for the social media sharing tool.

**Chrissy Stragisher ’08**  
Strength and Conditioning Coach/Coordinator of Basketball Operations and Video at WNBA’s San Antonio Stars.

Student Success

Muskingum University is a place where students feel challenged and encouraged to excel in the classroom. More than just supportive, our faculty are personally invested in student success, mentoring and motivating students on a daily basis.

Beyond the guidance students receive from professors and the informal assistance of classmates and friends, Muskingum offers a peer tutoring program known as the Student Success Center.

The Center provides one-on-one tutoring, small group study sessions, large group review sessions, study skills workshops and academic consultation. Open five nights a week, the Student Success Center provides a welcoming environment where Muskies help one another, all the while fostering academic growth, friendships and more.

---

Finding Your Place

“When I joined the Athletic Training program just as it was starting up, I knew this is what I wanted to do in my life. I enjoy helping athletes and building that relationship with athletes. After graduating, I plan on attending a physical therapy school to become a sports physical therapist.”

Dakota DeAmicis, Class of 2017  
Salem, Ohio
Life at Muskingum
Residential Life

Residential life is an important part of the Muskingum experience. More than 90 percent of Muskingum undergraduates live on campus or in the village of New Concord.

New to Muskingum in 2016 is the creation of the First-Year Community. First-year students will be housed on the West Hill in Thomas Hall, Memorial Hall, or Moore Hall. This is an exciting opportunity for you to live together in a community with other freshmen during your first year of college.

Housing options include:

**Traditional Residence Halls**… which are either single-gender or co-ed by floor; feature lounges, computer labs, laundry facilities, air conditioning, wireless network and cable access.

**Apartment-Style Townhouses**… where six students share a two-floor, three-bedroom unit with a living room, kitchenette and two bathrooms.

**Lakeside Houses**… where groups of up to six students share a residential house located on campus.

**Fraternity/Sorority/Social Club Housing**… for sophomore, junior, and senior students that want to live with members of their social club.

Feels Like Home.

“Attending Muskingum University is a huge blessing in my life. When I was looking at colleges, I was not really sure where I wanted to go or what I wanted in a school and on a campus. As soon as I set foot on Muskingum’s campus, I knew this was the place for me. It was small and surrounded by nothing but woods and small towns. It made me feel right at home. The professors here are one of a kind. They want to know you, and they also want to see you succeed to the best of your ability. I receive encouragement daily from all my professors.”

Sam Green, Class of 2017
Lancaster, Ohio
Get involved!

One reason students choose Muskingum is that they want to make a difference — on the playing field, on campus, or in the broader community — and have fun in the process. Whatever your interests, Muskingum has something for you!

Admission, Financial Aid & Costs

Applying for Admission
Muskingum University seeks motivated students with demonstrated academic abilities, a strong high school curriculum and the potential for continued growth. First-year applicants may apply after completion of the junior year in high school. Applications may be submitted electronically or by mail. Muskingum does not charge an application fee.

Evaluating Your Application
Your completed application will be evaluated individually and on its own merits. The admission decision is based on the combined strengths of your college preparatory coursework, academic performance in those classes, the results of standardized tests (ACT or SAT), and your accomplishments outside of the classroom.

Admission Requirements
Standard curriculum requirements for first-year admission are as follows:
- Four years of college prep English
- Three years of college prep mathematics
- Three years of social studies, and
- At least two years each of laboratory science and foreign language.

You must also submit the results of either the ACT or the SAT in order to complete your application file. We do not require the writing portion of the ACT.

PLUS Program Admission
Students with learning disabilities and/or ADHD may apply to Muskingum’s nationally-recognized PLUS Program. This program provides comprehensive, learning strategies-based tutorial support, and reasonable and appropriate accommodations. For more information, visit the PLUS Program pages at http://www.muskingum.edu/plus/.

How Affordable is Muskingum?
Muskingum is one of the lowest-priced private institutions in Ohio, with tuition charges in the bottom quarter of private colleges and universities across the country. In fact, more than 80 percent of incoming, first-year Muskingum students find that their total costs, after scholarships and grants, are less than the total billed costs as a residential student at many of Ohio’s public universities.

How Much Will it Cost Me?
Thanks to what we call the Muskingum Commitment, the table on the opposite page can give you a reasonable estimate of your costs right now. For a more precise assessment, visit our online Net Price Calculator at www.muskingum.edu/financialaid/commitnpc.html.

First, follow the steps listed under How to Use this Table. The resulting figures can then be plugged into the simple calculations on page 17 to provide you with an estimate of costs based on your academic performance and financial circumstances.

Actual Costs: 2016-17 Academic Year
Total standard charges for a student living on-campus, before financial aid eligibility is considered.

PART 2: AVERAGE BILLED COSTS, AFTER FINANCIAL AID AND STUDENT LOANS

| Estimated Total Billed Charges (from Part 1 above) | $39,670|
| Subtract Average Total Aid from table | (-) |
| Estimate of Average Billed Cost to Family | $ |

Financing options are available for families to help with educational costs not covered by financial aid. These include monthly payment plans, Federal Parent PLUS Loans, and assigned private loans for students.

1 Students admitted to Muskingum's PLUS Program for students with disabilities/ADHD will incur an additional charge for individual professional learning support ranging from $3,000 - $9,600 dependent on the chosen level of support.
2 Students who file the FAFSA are eligible to receive federal student loans of up to $5,500 in the first year; this amount is included in the Average Total Aid figure.
3 The figure reported is an average amount, and actual amounts will vary above and below the averages.

Conditions/Provisions

Admission Status: Students must be entering first-year students (not transfers) and must plan to live on-campus (not commuters). Actual scholarship and financial aid amounts will be based on information from the student's application materials (official transcript and ACT/SAT scores) and financial aid application (FAFSA). File your Free Application for Federal Student Aid (FAFSA) at www.fafsa.gov. Muskingum's FAFSA School Code is 003084.

Completion of Academic Core: Students must have completed minimum academic core requirements upon enrollment: four years of college prep English, three years of college prep math through Algebra II, two years of lab science (biology, chemistry, physics), and two years of a foreign language (not including ASL).

Income Verification: If the estimate is based on an income range, the student and parents must complete and submit the 2017-2018 FAFSA. Students must file the FAFSA using 2015 financial information.

Muskingum’s Net Price Calculator
While you will get a good general estimate of financial aid eligibility from the Muskingum Commitment program, some families are interested in a more precise evaluation of potential eligibility. The Muskingum Net Price Calculator can provide a more accurate assessment of your financial aid eligibility based on information similar to that requested on the FAFSA. The Net Price Calculator is available online at www.muskingum.edu/financialaid/commitnpc.html.

Academic Scholarships & Special Awards
Muskingum offers academic scholarships to qualified students based on the strength of high school curriculum, grades in college-prep courses and ACT/SAT results.

The John Glenn Scholarship is Muskingum’s highest award: a four-year, full-tuition scholarship offered to a small number of entering first-year students. Other academic scholarships range from $7,500 to $17,500 per year, and may be enhanced by participating in our on-campus Scholarship Day program.

Performance awards (Music, Art, Digital Media, Forensics, Journalism, Theatre), Special Awards (Science, Service and Leadership), and Awards of Circumstance (Legacy, Presbyterian, Appalachian, Clergy, Access, GM-EEOC) are also available. For details, see the scholarships page at www.muskingum.edu/financialaid/scholarships.html.

Qualified students will be invited to Muskingum University Scholarship Days for a chance to earn more scholarship money. Scholarship Days will be held on December 3, 2016, January 28 and February 4, 2017.
How to Use this Table
To estimate the financial assistance a student can expect at Muskingum:

1. Locate the magenta circle corresponding to his or her cumulative GPA range (unweighted on a 4.0 scale).
2. Locate his or her ACT/SAT test score range.
3. If you plan to file the Free Application for Federal Student Aid (FAFSA) for need-based financial aid, scan across to the column that corresponds to your estimated 2015 total family income from all sources (see A below). If you do not plan to file the FAFSA and are interested only in non-need assistance, refer to the last column at right.

What the Estimates Mean
Total Gift Aid is a range of total non-repayable scholarships and grants from all sources, including academic scholarships, awards of circumstance, and need-based federal, state and institutional grants.

The Muskingum Commitment is the first figure in the Total Gift Aid range, and represents the minimum amount of gift aid your student will receive.

The Average Total Aid figure shows an average amount of total financial assistance that students and families with academic and financial characteristics similar to yours typically receive. This consists of the Total Gift Aid amount (see explanation above) plus federally-backed student loans.

If actual student academic credentials and family income figures are consistent with your estimates, the Muskingum Commitment assures you that your student’s financial award will contain total gift aid that is equal to or greater than the lower amount in the total gift aid range shown in the table. The higher figure in the range represents the maximum gift aid students typically receive, except in special circumstances.

**Total Family Income**^A^: Sum of parent and student estimated 2015 income from wages and all other income sources reported on the IRS-1040 form, plus any untaxed income (such as child support). In cases of divorced or separated parents, use the income of the parent (and stepparent) with whom the student lives.
More than 80 percent of incoming, first-year Muskingum students find that their total costs after scholarships and grants are less than the total billed costs as a residential student at many of Ohio’s public universities.

Location & Campus Visits

Ideal University Location

Located in the rolling hills of east central Ohio, Muskingum offers the ideal college location – the secure and relaxed environment of a small college town with easy access to large city attractions. The nearby cities of Zanesville and Cambridge offer shopping, dining, movies and other entertainment. Outdoor activities such as hiking, cycling and golfing abound. Columbus is an hour’s drive from New Concord; Cleveland and Pittsburgh are approximately two hours away.

Plan a Campus Visit

Come visit us at Muskingum by scheduling an appointment with the Office of Admission or by signing up for a Fall or Spring Open House. Visits can be arranged between 10:00 am and 3:00 pm Monday through Friday and most Saturdays during the school year. Call 800-752-6082 to schedule a visit, meet with a coach, sit in on a class or join us for lunch.

The Long Magenta Line… Lifelong Connections.

“As a student at Muskingum University brings many opportunities to grow as an individual, a student and a member of a community. Since the day I made the decision to become a student at Muskingum, I knew it would be bigger than calling this place my home away from home. It was the day that I became a part of a legacy called the long magenta line. Through the decision to attend Muskingum I created lifelong connections with the faculty, staff members, students, and alumni. I am proud to wear magenta and black, and I am proud to be a Muskie!”

Laikin Lauwray, Class of 2017
Coshocton, Ohio
From I-70, take Exit 169, then follow SR 83 north 1 mile to New Concord. Turn right at Main Street (US 40/22), then left on College Drive.
Application Instructions

THE PROCESS IN GENERAL
Admission to Muskingum University is made on a rolling basis. The Admission Committee will act on your application as soon as all materials are on file and will notify you of its decision within a few weeks. First-year applicants may apply after completion of the junior year in high school. Any student attending a post-secondary institution after high school graduation must apply as a transfer student.

NO APPLICATION FEE
In an effort to provide increased opportunity for admission and scholarship/financial aid consideration and to eliminate potential obstacles to the application process, Muskingum University does not charge an application fee.

STEPS TO FOLLOW
1. Complete and sign the application, or apply online at www.muskingum.edu/admission/
2. Arrange to have your ACT or SAT results sent to the Office of Admission. Muskingum’s codes are: ACT: 3300; SAT: 1496.
3. Ask your high school counselor to complete the Secondary School Report Form, including your courses and grades. Additional information includes personal reference and personal statement.
4. In addition, we strongly encourage you to submit:
   - A personal reference – comments from those who know you and your potential for success are useful to the Admission/Scholarship Committees.
   - A personal statement – demonstrate your ability to organize your thoughts and express yourself.
   - A recent photograph
5. Visit the campus. Arrangements for an interview, campus tour and meetings with faculty and students can be made by contacting the Office of Admission. Although a visit is optional, it is time well spent and highly recommended.

TRANSFER STUDENTS
In addition to the previous application steps, transfer students must submit official transcripts from each college or university attended. An evaluation of transfer credits is completed after the admission decision. For additional information regarding transferring to Muskingum, please call the Office of Admission.

STUDENTS WITH DISABILITIES
Applicants with disabilities as identified by the Americans with Disabilities Act (ADA) who are requesting auxiliary aids, services, and/or reasonable and appropriate accommodations are encouraged to identify their needs to the University ADA compliance office at 740-826-8280. A request should include a written diagnostic statement from a licensed professional which verifies the disability and is based on an appropriate evaluation completed within the past three years. The request should detail the necessary auxiliary aids, accommodations and services in reference to the diagnostic statement.

Muskingum University assumes the responsibility for making available to all legally qualified students with disabilities the reasonable and appropriate accommodations and auxiliary aids and services necessary for their unrestricted access to the learning environment and to demonstrate their academic achievement. Such reasonable accommodations are made at no expense to students with disabilities.

PLUS PROGRAM PARTICIPANTS
Muskingum University offers the PLUS Program for students with identified learning differences. Applicants with specific learning disabilities or ADHD who wish to apply for the PLUS Program should mark the designated box on the Application for Admission. Specific instructions for applying to the PLUS Program are available at www.muskingum.edu/plusapply.html.

SOURCES OF CONSUMER INFORMATION
Consumer information is available to current and prospective students in print (University Catalog, Graduate and Continuing Studies Catalog, The Student Handbook) and on the Muskingum University website (www.muskingum.edu). Information is available by request pertaining to undergraduate and graduate programs of study; accreditations; and costs, fees and refund policies. Information pertaining to the “Student Right to Know Act” (graduation/completion rates) and test results for Teacher Education students is available on the Muskingum website or in hard copy from the Registrar or Office of Admission. Muskingum University annually issues a report which provides statistics for the previous three years concerning reported crimes which have occurred on-campus (or off-campus as required), and includes policies related to campus security. This report is available at http://ope.ed.gov/security/ or in hard copy upon request.

QUESTIONS?
For more information, contact Muskingum University, Office of Admission, 163 Stormont Street, New Concord, OH 43762, telephone 740-826-8137 or 800-752-6082.

IMPORTANT DATES
September 1 – March, Senior Year: complete application for admission. Secure high school transcripts and other requested information. Take the ACT or SAT. Attend on-campus programs. Apply for scholarships.
October 1 – March, File the FAFSA, available October 1, for need-based financial aid online at www.fafsa.gov.
May 1, Tuition deposit due (deposits postmarked after May 1 are non-refundable).

Muskingum University admits students of any race, color, handicap or physical challenge, gender, religion, age, orientation, socio-economic status or political affiliation, and national or ethnic origin.
